FHWA – 23CFR 637.205 (a) Quality Assurance Guidelines

FORMS:

- LB - 95A - Resident Engineer's Certification
- LB - 95 - Soil, Electrical, and Landscape Materials Certifications
- LB - 96 - Materials Certification for FHWA

INSTRUCTIONS:

I. Assignment Procedures

The Resident Engineer (RE) shall:

- A. Initiate the Form LB-95A on Federal-Aid projects only, once all materials testing for the project is completed, results issued an all materials certifications are received from the Contractor.
 - B. The form LB-95A and all material certifications are to be submitted
 - to: Manager, Bureau of Materials
 - Attention: Closeout Engineer (Materials)
 - 930 Lower Ferry Rd.
 - PO Box 607
 - Trenton, NJ 08625
- with a copy of the LB-95A to the Regional Construction Engineer, the Bureau of Construction Engineering.

The Closeout Engineer of Bureau of Materials shall:

- A. Generate the Form LB-95 and send a request to the appropriate Electrical (for Electrical, ITS and Movable Bridge Items), Landscape, and Regional Materials Offices with a due date, for them to complete the LB-95 for their respective electrical, landscape, and soils items.
- B. Circulate Laboratory records folders to section supervisors to review, sign, and date.

The Principal Engineer for the Testing and Inspection sections in the Headquarters Laboratory shall:

- A. Review items sampled and tested or accepted for use on project.
- B. Ensures that there are enough test reports to cover the project requirements based on original quantities and for failing samples.
- C. List all deficiencies on worksheet form provided in job file.

The Electrical, Landscape, and Regional Materials Offices shall:

- A. Complete Form LB-95 and return it to Manager, Bureau of Materials by the request due date.

The Closeout Engineer, Bureau of Materials shall:

- A. Review the project records upon receipt of the requested forms.
- B. Notify the RE of any materials certifications that are missing from appropriate project Bureau of Materials files.
- C. Request from the RE any missing materials certifications.
- D. List all material that fails to comply with disposition onto LB-96.
- E. Completes LB-96 after all deficiencies have been investigated. The LB-96 is sent to the Manager of Bureau of Materials for approval and distributed.
